

Abstract

- ➔ In this work....
- ➔ this study contributes
- ➔ We present a new...
- ➔ we present
- ➔ we describe
- ➔ For this reason the system presented in this paper
- ➔ The current paper describes the
- ➔ This paper introduces..
- ➔ The article describes
- ➔ The objective of this study is...
- ➔ This paper presents...
- ➔ One of the... is..... (Start abstract with an introduction then tell what you have done)
- ➔ In this paper , we explore

Introduction

- ➔ The above mentioned two new problems are
- ➔ Here we purpose a
- ➔ Our main contributions include:
- ➔ compare to existing device locating methods, our experiment show
- ➔ we purpose a..
- ➔ we implement the system into....
- ➔ From this point of view(as transition word from past paragraph)
- ➔ In this paper
- ➔ Our system is based on
- ➔ We address
- ➔ Our system therefore significantly contributes to HCI in two ways
- ➔ The toolkit provides..
- ➔ we demonstrate
- ➔ in this paper we firstwe proceed with the details of next we demonstrate... ..we conclude
- ➔ The project is rich...
- ➔ a growing body of research in... describes the important role of...
- ➔ There is a potential....
- ➔ in this situation....
- ➔ This research introduces...
- ➔ We first describe...second we present... third ,we present.... last, we presents...
- ➔ This paper analyzes..
- ➔ This paper is structures ad follows : in section 2 we describe...
- ➔ We have designed
- ➔ In the following sections .. are described
- ➔ Initially, the state of the art in “”. is examined, particularly in regards to ...
- ➔ the term... refers to
- ➔ the paper is organized as follows:... Section 2 presentssection 3 describes....
- ➔ paper concludes with...
- ➔ In last few decades, the debate surrounding the...
- ➔ Until recently
- ➔ the contributions of this paper are :...
- ➔ The structure of this paper consist of

Research Methodology

- ➔ This research project is based on a approach.
- ➔ Our exploratory analysis of the ...
- ➔ Examining the overall usage statistic...
- ➔ Here we will describe a method for each of these...

Related Works, State of the art, literature review

- ➔ there have been a variety of other methods for collecting common sense facts. which differs in nature from ours.
- ➔ One problem with this approach is
- ➔ More recently,
- ➔ another example
- ➔ watch-connect builds on work on interaction techniques for smartwatch, cross design setups and toolkits designs.
- ➔ The studies carried out (Reference) state that.....
- ➔ interestingly,
- ➔ The literature shows...
- ➔ by conducting searches on scientific based

General

- ➔ More specifically,
- ➔ As described
- ➔ To bridge the gap between concept design and full implementation
- ➔ Cross Design Techniques have been explored in wide...
- ➔ to mitigate the challenges
- ➔ is built around
- ➔ To support,
- ➔ To allow multiple watches to interact with each other...(Starting the paragraph)
- ➔ To demonstrate
- ➔ One of core problems
- ➔ with increasing capacity....(starting the paragraph)
- ➔ One important research challenge..
- ➔ it is important to note that a ...
- ➔ this goes beyond...
- ➔ this section...
- ➔ as illustrated in figure 2
- ➔ on the other hand
- ➔ from a technological point of view,
- ➔ it could be argued that all ...
- ➔ As mentioned above,
- ➔ a previous study indicated when...
- ➔ is a very important aspect of
- ➔ from a... perspective
- ➔ As shown in Figure ...
- ➔ We created
- ➔ in parallel with this step
- ➔ One of important elements....
- ➔ one of the areas where this application can be
- ➔ We used...
- ➔ ...was implemented...
- ➔ on the other hand,...

Evaluation

- ➔ We collected evidence showing that Verbosity is fun to
- ➔ We introduced
- ➔ We conducted an analysis
- ➔ we implemented
- ➔ results from questionnaire, etc indicated a change....
- ➔ these results helped to set /establish a precedent for the studies that followed.
- ➔ as part of the activity ,
- ➔ the study itself...
- ➔ the study was carried out in ...we used an independent t-test...
- ➔ fifty one 10 years old students from... in... were involved in this.... study.
- ➔ a survey was given to student to take after they had ...
- ➔ Participants were given,,,
- ➔ after an initial analysis ...
- ➔ it seems reasonable that...
- ➔ the software is built...
- ➔ At this point...
- ➔ In order to evaluate the, a prototype was..
- ➔ The software was used for several hours...
- ➔ The application was tested by using both white box and black box testing and...
- ➔ unluckily , This proves to be problem...
- ➔ Other participants noted that....

Conclusion

- ➔ The major contributions of this work
- ➔ We examined
- ➔ We have presented
- ➔ Compared to other methods...
- ➔ our solution allows for...
- ➔ our solution reduces....
- ➔ the work is a contribution to the field of....
- ➔ We have come up with a solution that...
- ➔ We see a need ...
- ➔ In this article we have described ...
- ➔ a key aspect of the... presented in this paper is...
- ➔ The approach presented in this paper focuses on
- ➔ The approach has a dual aim
- ➔ The current paper describes
- ➔ it appears that...
- ➔ This paper has presented
- ➔ we presented
- ➔ Our experience ... indicated that
- ➔ as such ... can be effective ..., . however m not empirical research is done ...
- ➔ the contribution of this proposed model is ...
- ➔ Another contribution related to the use of...
- ➔can provide the researchers...
- ➔ also, researchers, etc of this field can utilize the....
- ➔ We have derived
- ➔ We have built a proof of concept

Future Work

- ➔ A fascinating future research project is to implement time-varying
- ➔ Another interesting field of further research is measurement of musical instruments
- ➔ For real-time applications, it may be interesting to study
- ➔ In future work, additional data collection may be performed in order to verify the above assumption.
- ➔ Moreover it will be important to...
- ➔ we have not yet....considered/used/evaluated...
- ➔ having all these in mind future work is needed to employ
- ➔ While the majority of our efforts to date have been focus solely on...

this research was funded by..
the paper has been fully supported by..

When you want to refer to your past research....:
In previous work author stated....

How to use this cheat sheet:

1. You can use the terms in your research paper
2. You can use the terms for the ideation of topics you want to describe in your paper
